### 1 Israel

Will be YES now (see att. 5)

### 2 Netherlands

Accepted

### 3 Poland

Partly accepted, would be turned to YES, after adopting text from the Netherlands

### 4 Sweden

Not accepted, Thailand itself is satisfied with the present text, and does not see any problem with implementation.

### 5 Thailand

Unfortunately, the character names have to conform to those in ISO/IEC 10646-1. A way out may be including a note, or even an Annex stating the correct Thai names for those deviating in the standard.  
The other points are accepted.

### 6 USA

1. Not accepted. The other voting NBs do not share the US position, as appears from N 3383
2. Accepted.
3. Accepted.
4. Accepted.
