- to report on its activities to the next JTC 1 Plenary in November 2003 in Singapore.

An initial list of candidate areas comprises:

- Middleware
- web services
- Privacy management

JTC 1 requests its Secretariat to initiate a call for experts to actively participate and/or provide convenorship responsibilities in any of the related Study Groups.

A Study Group will be initiated only if a convener has been nominated and at least 3 additional National Body or Subcommittee participants have been nominated.

JTC 1 further invites its National Bodies and SCs to identify additional candidate areas, particularly from the list of items of the LTBP, together with an offer for participation. The JTC 1 Chairman is authorized to initiate additional Study Groups if the same requirements as above are met.

Resolution 20 – Cooperation and Coordination of Biometrics Work

JTC 1 reminds SC 37 to consider in its first meeting its scope and to pay particular attention to the exclusion of work areas.

Noting that standardization in the area of biometrics and related applications affects the work of some of its SCs, JTC 1 requests its Chairman to hold, not later than February 2003, a meeting of the chairmen and secretaries of SC 17, SC 27, and SC 37 to establish a demarcation between their respective activities and, more importantly, to identify and put in operation methods for cooperation and coordination among these SCs. The report from such meeting should be made available to JTC 1 as soon as possible.

Resolution 21 - Dissolution of Technical Directions

JTC 1 has reviewed the original purpose and current results of creating Technical Directions and has determined that in general, TDs have not achieved the intended purpose. Therefore, JTC 1 eliminates Technical Directions as a concept for JTC 1.

Nevertheless, JTC 1 notes that cross-SC coordination is extremely important and continues to be a top priority for JTC 1. JTC 1 instructs and expects its SCs to use all of the tools available to them (for example, those listed in JTC 1 N 4776, the JTC 1 Toolbox) to ensure efficient and effective coordination.

Unanimous

Resolution 22 – Cooperation and Coordination of Cross Cultural and Linguistic Matters

JTC 1 instructs its Chairman to organize a meeting of SC 2, SC 22/WG 20 and SC 35 to facilitate the cooperation and coordination of the projects within JTC 1's Program of Work relating to cross cultural and linguistic matters. Additionally, all other JTC 1 National Bodies, Subcommittees, Liaison Organizations and JTC 1 Recognized PAS Submitters are encouraged to attend.

JTC 1 recommends this ad hoc meeting address the following agenda items:

- coordination of standards development for projects relating to cross cultural and linguistic matters affecting multiple SCs and ways of cooperation
- recommendations to JTC 1 on the appropriate SC or joint SC work for development of related standards
- consideration of how to address these issues on an ongoing basis (e.g., special working group, collocated meetings, joint working group) and ensure continuity by periodic review

Unanimous

Resolution 23 – Obligation of JTC 1 Subcommittee Chairmen

JTC 1 reminds its Subcommittee Chairmen of their obligation to attend the whole of the JTC 1 Plenary meeting and present their business plans. In exceptional circumstances, the SC Chairmen may designate a representative to attend on their behalf. JTC 1 attaches significance and value to the SC presentations and highlights the opportunity this provides for educating, advising and seeking resolutions to issues defined. These presentations should be brief, concise and focused on accomplishments, risks, future significant projects and special circumstances requiring JTC1 resolution where needed.

Unanimous

Resolution 24 – Invitation to JTC 1 PAS Submitters and Consortia

JTC 1 acknowledges the complementary importance of PAS submitters, (both current and potential) and Consortia to the timely development of its deliverables (IWAs and International Standards) in the Information Technology sector. JTC 1 actively seeks to engage with such organizations and encourages all JTC 1 participants to seek such engagements. JTC 1 encourages its National Bodies and SCs to submit recommendations on appropriate organizations with which to engage. The JTC 1

Chairman and Secretariat are authorized to prioritise these engagements and arrange to invite the appropriate organizations to engage with JTC 1. If appropriate, this should include making significant amounts of time available in JTC 1 Plenary meetings to allow these organizations to present their work to JTC 1. Representatives making such presentations should be invited to participate as observers in the whole JTC 1 plenary process, both formal and informal.

The JTC 1 Chairman, National Bodies and SC Chairmen, or their representative, should seek opportunities and present JTC 1's work, processes and deliverables and how JTC 1's deliverables complement the deliverables to such organizations. Where such engagements are made, no prior authority from JTC 1 is required but a report of the engagement should be made to the JTC 1 Secretariat so that the JTC 1 Chairman and Secretariat can make decisions on how such relationships might be deepened.

Unanimous

Resolution 25 - PAS Mentors

1. JTC 1 instructs its Secretariat to issue a request for National Bodies to confirm PAS Mentors and to provide additional PAS Mentors. The Secretariat is then instructed to distribute an updated list of PAS Mentors, together with the most current PAS Process, as information to the National Bodies to encourage their involvement with the PAS Process.

2. JTC 1 encourages its Secretariat to increase the visibility of the PAS Process on the JTC 1 web site giving greater emphasis to successful PAS applications and resulting standards. JTC 1 notes that the JTC 1 PAS Mentors offer their assistance in reviewing and recommending changes to the JTC 1 web site. Additionally, when the PAS Submitter part of the JTC 1 web site is accessed, contact information should be made available via web tools such as pop-up menus. References to PAS Mentors should be highlighted on the JTC 1 web site.
3. JTC 1 will continue to make the PAS Management Guide available as a standalone document downloadable from the JTC 1 web site in addition to its inclusion in the JTC 1 Directives.

4. JTC 1 appreciates the kind offer of the International Systems Security Engineering Association (ISSEA) to serve as a resource for future PAS Submitters and encourages other PAS Submitters to volunteer. Such resources will be noted on the JTC 1 web site.

Unanimous

Resolution 27 - PAS Processing

1. On each PAS Submitter acceptance ballot, JTC 1 will remind National Bodies that the PAS Process is a two-stage process [acceptance of a PAS Submitter and acceptance of PAS Specifications]. Any comments submitted on the JTC 1 PAS Submitter Application that relate to an actual specification shall not be considered.
2. During a PAS Submission, ITTF is requested to maintain the Explanatory Report as a separate document. ITTF will note on the PAS DIS submitted for approval that the Explanatory Report is informational only and is not subject to ballot.

Abstention: France, Germany, Sweden
Objection: Australia, UK, New Zealand

Resolution 30 - Electronic Document Distribution Guidelines

1. JTC 1 notes with concern that some non-public JTC 1 documents are available from openly accessible web sites. JTC 1 reminds its National Bodies, Subcommittees and Liaisons of the Document Access Classification List contained in document JTC 1 N 5348, JTC 1 Policy on Electronic Document Distribution Using the World Wide Web (also Annex H of the JTC 1 Directives). This list applies to both JTC 1 and SC level documents. National Bodies, Subcommittees and Liaisons are instructed to adhere to this classification list when posting documents.
2. Noting that document N 5348 is several years old and that the concerns that led to the development of the document access classification list may no longer be applicable, JTC 1 instructs its Secretariat to issue a call for comments to JTC 1 National Bodies, Subcommittees and Liaison Organizations and further instructs the IIT-RG to review these comments together with the access classification list and to provide recommendations to JTC 1 on the continued usefulness and viability of maintaining these levels of document classification.

Unanimous

Resolution 31 - Addition of an Approved File Format

JTC 1 approves Excel 2000 as an acceptable medium (input format) for submitting comments on SC level documents and instructs its Secretariat to add Excel 2000 to the approved list as contained in document JTC 1 5348, JTC 1 Policy on Electronic Document Distribution Using the World Wide Web.

Objection: Sweden; UK

Resolution 32 - Review of Approved File Formats

Noting that document N 5348 is several years old and that National Body concerns that led to the development of this document may no longer be valid, JTC 1 instructs its Secretariat to issue a call for comments from JTC 1 National Bodies, Subcommittees and Liaison Organizations and further instructs its IIT-RG, to review these comments together with the list of approved file formats and to provide recommendations to JTC 1 on the continued usefulness and viability of maintaining such a list.

Unanimous

Resolution 33 – Concerns with National Body Comment Template

JTC 1 notes the ISO requirement that National Body comments on DIS/FDIS ballots be submitted in the ISO template using MS Word. JTC 1 instructs its Secretariat to explore with the ITTF the possibility of utilizing an open systems template (such as HTML) for preparing and submitting these National Body comments. In addition, JTC 1 instructs its liaison officer to ITSIG to raise this concern at a future ITSIG meeting.

Unanimous

Resolution 34 – Additional IT Tools

JTC 1 notes the renewed interest in adopting common project management tools and collaborative authoring tools across JTC 1 Subcommittees. Resolution 35 – Modification to Revised JTC 1 Directives Section on Stabilized Standards

JTC 1 instructs its Secretariat to modify the section on Stabilized Standards in the revised JTC 1 Directives to provide that an SC or other standards-owning body within JTC 1 may recommend the transition to stabilized status for a standard that it owns as the result of any regular review of that standard, as opposed to only a regular five-year review.

Unanimous

Resolution 36 – Re-adoption of Withdrawn Standards and Simultaneous Transition to Stabilized Status

JTC 1 recognizes that there are a small number of standards which have been withdrawn in the past even though other standards and/or implementations still exist which are dependent upon the standard. JTC 1 notes that such standards would have been made stabilized standards, but that the Stabilized Standards category did not exist. JTC 1 notes that such withdrawn standards implicitly meet the requirements for stabilized status of maturity, stability, and lack of change.

To address this situation, JTC 1 instructs its Secretariat to notify JTC 1 National Bodies and Subcommittees that for a period of six months (from 15 November 2002- 15 May 2003), proposals may be received to re-adopt such previously withdrawn standards and simultaneously transition them into stabilized Status, according to the following provisions:

- Each such standard when proposed by a JTC 1 National Body or Subcommittee must be accompanied by documentation of existing dependent standards or existing in-use implementations dependent upon the standard
- No changes of any sort whatsoever may be made to the standard during this process. If any changes are needed the standard must be addressed via an NP.
