Networking TS - Editor's Report

History

N4626 is the fourth working draft for the Networking TS, revising N4612. This draft includes the changes approved in Issaquah, P0405R0 and P0423R0.

Editorial changes:

- Renamed the `wait_traits` typedef in socket streams, to have a different name from the different typedef inherited from the base class.
- Added the index names to the page footers of the indices.

Acknowledgements

Thanks to Lars Gullik Bjønnes and Chris Kohlhoff for reviewing the PDTS.
