

| X3J16 Number | WG21 Number | Title   | Author                                      |
|--------------|-------------|---|---|
| 91-0137      | N0070       | Static Initialization Summary   | Steven Kearns                               |
| 91-0143      | N0076       | Deferred Initialization of Static Objects   | John Wilkinson                              |
| 91-0147R1    | N0080       | Results of Letter Ballot for Conversion to Type 1   | Stephen D. Clamage                          |
| 92-0000      | SD-1        | 1992 X3J16 Document List  | Stephen D. Clamage                          |
| 92-0001      | SD-2        | X3J16 Membership List   | Stephen D. Clamage                          |
| 92-0003      | N0081       | 1991 Annual Report  | Dmitry Lenkov                               |
| 92-0004      | N0082       | Extending C++ to allow restricted return types on virtual functions                                     | John Bruns, Dmitry Lenkov                   |
| 92-0005      | N0083       | Generic Dynamic Arrays in C++   | Uwe Steinmüller, Alexander von Zitzewitz    |
| 92-0006      | N0084       | A String Class in C++   | Uwe Steinmüller                             |
| 92-0007      | N0085       | Extending C with the C++ Linkage Specification  | AFNOR C++ Experts Group                     |
| 92-0008      | N0086       | A Proposal Solving the Name Space Pollution Problem in C++  | Volker Bauch, Roland Hartinger, Erwin Unruh |
| 92-0010      | N0088       | Analysis of C++ Keyword Arguments   | Bruce Eckel                                 |
| 92-0011      | N0089       | Orphan Non-terminals  | Anthony F. Scian                            |
| 92-0012      | N0090       | Comments and Recommendations on Proposing Free Store Operator Specifically Devoted to Arrays of Objects | Michael Holly, Bill Gibbons                 |
| 92-0013      | N0091       | Declarators that are Quasi-used   | Prescott K. Turner, Jr.                     |
| 92-0015      | N0093       | Programming Language C++ Proposal   | Dmitry Lenkov                               |
| 92-0016      | N0094       | Excerpt from the Draft Minutes of the SPARC Meeting   | via Dmitry Lenkov                           |
| 92-0017      | N0095       | X3 Procedures for Concurrent Processing of National and International Standards                         | via Dmitry Lenkov                           |
| 92-0018      | N0096       | Joint National/International Standards Development Projects   | via Dmitry Lenkov                           |
| 92-0019      | N0097       | Agenda for London Meeting   | Dmitry Lenkov                               |
| 92-0020      | N0098       | Lifetime of Temporaries   | Andrew Koenig                               |
| 92-0021      | N0099       | Analysis of Overloadable Unary operator.()  | Steven Kearns                               |
| 92-0022      | SD-0        | WG21 Meeting Agenda   | Steven Carter                               |

Also included is the corrected page 9/10 of the minutes from the Dallas meeting (X3J16/91-0136, = WG21/N0069) held in November 1991.
