ANSI X3J16 membership list
 =====

The membership list is organized into six sections: 1) Liaisons and representatives; 2) ISO/IEC JTC1/SC22/WG21 technical experts; 3) members with voting rights for the November meeting; 4) members whose voting rights have been suspended due to nonattendance of meetings; 5) observer members; 6) members who have applied for voting status but who have not yet attended a meeting. Within each section, the names are alphabetized by affiliation, with those representing themselves at the end of the section. A complete index of all individual and organization names appears at the end of the list, keyed to the line number on which the name occurs.

Please check your entry carefully for errors and omissions. Note that there are many blanks in the listings for things like FAX numbers and email addresses. If you are able to supply any of this information, please call, write, or email me.
