Slay Some Earthly Demons XII

Document: n3411 Author: Martin Uecker Date: 2024-12-07

Undefined Behavior: Source file does not end in newline. (J.2 (2), N3301)

Analysis: Is accepted by most compilers.

Recommendation: Allow.

Wording

5.2.1.2 Translation phases

2. Each instance of a backslash character () immediately followed by a new-line character is deleted, splicing physical source lines to form logical source lines. Only the last backslash on any physical source line shall be eligible for being part of such a splice. ~~A source file that is not empty shall end in a new-line character, which shall not be immediately preceded by a backslash character before any such splicing takes place~~
