

From:ISO/IEC JTC1/SGFS

To:ISO/IEC JTC1/SC22/WG15

ISO/IEC JTC1/SGFS has discussed in its meeting in Berlin, June 1991, the response from ISO/IEC JTC1/SC22/WG15 POSIX (SGFS/N355) on the request from the SGFS for input regarding the potential extension of scope of ISO/IEC TR 10000 (SGFS/N232).

The suggestion of SC22/WG15 to convene a special meeting to discuss the issue of OSE Profiles is well received by the SGFS, and a resolution to organize such a meeting has been approved by the SGFS.

The SGFS wishes to bring to the attention of SC22/WG15 the document SGFS/N402, titled 'The Way Ahead', which discusses the current view of the SGFS on the progression of work in the area of profiles for OSE.

As soon as the meeting details are known, the SGFS secretariat will make this information available to the convenor of SC22/WG15. Also, the attendees of the POSIX Profile Coordination Ad Hoc meeting (May 1991, Amsterdam) will be informed to be invited. If other interested groups, that might be invited, are known to you, please inform the SGFS secretariat.
